Sept 9-11, 2024

Nov. 18-20, 2024

Fundamental Alignment Level 1:

3 Day Fundamental Class 8am to 4pm

This course is designed for the new or less experienced individual in fundamental four-wheel alignment theory, equipment operation and the common OEM adjustment methods found on domestic and imported passenger cars and light trucks. It also includes an overview of suspension and steering systems with detailed instruction in performing proper inspection procedures. Course consists of a combination of classroom lectures and hands-on shop training. Hands-on/Lab modules are structured to provide the student in-depth skills relating to alignment equipment operation in combination with additional opportunities to perform actual vehicle alignment processes.

LEARNING OBJECTIVES:

By the end of the course, the participant will be able to:

- Describe camber, caster, toe, and thrust angle and the related effects these angles have on tire wear and vehicle handling.
- Perform proper pre-alignment inspection of the suspension and steering systems.
- Set-up the aligner and accurately measure the adjustable angles
- Perform a four-wheel alignment using the most common OEM adjustment methods found on today's vehicles using SLA and strut suspension systems.

COST:

\$525.00 per student

Class Time 8:00 am to 4:00 pm

No previous automotive experience required.
