August 20-21, 2024

Oct. 21-22, 2024

Alignment Level 3:

2 Day Class 8am to 4pm

This course is designed for an “experienced” alignment technician. It takes a deeper look into diagnosing vehicles that can’t be adjusted into spec, or are in spec but still present tire wear, drive-ability or handling issues. Instruction covers in-depth equipment operation including advanced diagnostic procedures, steering and suspension system related problems, specialized OEM adjustment schemes and other alignment related diagnostic procedures. Course consists of a combination of classroom lectures and hands-on shop training.

The amount of actual vehicle alignments will vary with each class.

LEARNING OBJECTIVES:

By the end of the course, the participant will be able to:

- Describe in-depth principles of camber, caster, toe and thrust angle.
- Describe, measure and use advanced diagnostic angles such as;
 - Steering Axis Inclination
 - Included Angle
 - Turning Angle
 - Maximum Steer
 - Set Back and Symmetry
- Additional means of identifying damaged components that affect Alignability and Handling
- Keep most repairs in house and be an asset to local body shops

PREREQUISITE

At least one year of “hands on” alignment experience using Hunter equipment or the successful

completion of the Hunter Alignment Fundamentals Alignment (Level I) course.

COST:

\$470.00 per student
