

HUNTER TRAINING

Alignment Advanced Level 3

Course Description:

April 22-23, 2026

This course is designed for an "experienced" alignment technician. Instruction covers in-depth equipment operation including advanced diagnostic procedures, steering and suspension system related problems, specialized OEM adjustment schemes and other alignment related diagnostic procedures. In depth focus on identifying bent and damaged components to keep repairs in house. Course consists of a combination of classroom lectures and hands-on shop training.
