

# Join ASE Connects

Strengthen the Industry. Support Technicians. Grow Your Shop.

Every shop, dealership, and business in our industry depends on great technicians. ASE Connects—developed by ASE in partnership with WrenchWay—gives you a direct way to invest in their future—while equipping your shop with tools, data, and insights that deliver value today.

## What's Included In Your Shop Membership

### School Assist

Connect directly with local schools and support the programs preparing future automotive, diesel, and collision technicians.

- **Multiple schools on one central platform**, with up-to-date instructor contacts for all participating high school and post-secondary programs in your area
- **List of support requests from schools**, such as tool and equipment donations, guest speakers, and shop tours so you to easily see how you can help
- **Directly message schools**, and if a school doesn't response, we'll help get you in touch
- **Coming soon! Student profiles**, allowing students to connect with local shops and dealerships for job shadows, shop tours, internships, and part-time or full-time employment

### Industry Data Exchange - New!

Get real-time insight into technician pay, benefits, and labor rates.

- **Anonymous, verified data** taken directly from participating shops
- **Personalized dashboard** showing how your shop compares to others locally and nationally
- **Filter** by location, shop type, and industry
- **Real-time updates** as more shops join the network and data flows into the Exchange

### Members-Only Content & Events

Elevate leadership and employee management practices with insights designed to help you build a stronger team.

- **Exclusive webinars** featuring industry experts on leadership, retention, shop culture, and technician development
- **Best-practice guides** that break down the latest trends and proven approaches around managing teams, improving workflows, and strengthening communication
- **Downloadable templates** for performance reviews, onboarding, goal-setting, career paths, and other key shop management needs
